

# Dr. Rafael Cisneros

## Automatic Control

---

### ■ Research Topics

- Control engineering.
- Automatic Control applied to power electronics and electrical power systems.
- Control theory.

### ■ Involvement in Research Projects

- FREEDM funded by the US National Science Foundation.
- ECOS NORD Mexico-France 2015.

### ■ Publications

- <https://scholar.google.com/citations?user=wzb6kLMAAAAJ>
